

DVD100

17th Edition Initial inspection and testing of domestic properties

- **Instructional DVD on 17th Edition Testing and Inspecting new domestic installations**
- **Ideal study aid for anyone enrolling on the C&G 2391 (or equivalent) course**
- **Excellent refresher on 'Best Practice' for experienced electricians**
- **Produced in conjunction with NICEIC**

DESCRIPTION

This DVD, produced in conjunction with experts from the NICEIC, explains in detail the techniques and 'best practices' for initial inspection and test of domestic installations.

It is an ideal study-aid, and invaluable for anyone involved in working on domestic installations including single-phase commercial service installations such as hotels and schools.

Chapters:

1. Making a Start
2. The Instruments
3. The Visual Inspection
4. The Testing Procedure
5. Continuity of Protective Conductors
6. Continuity of Ring Circuit Conductors
7. The Insulation Test
8. Polarity
9. Earth Fault Loop Impedance
10. Prospective Fault Current Tests
11. Earth Loop Impedance
12. Functional Tests
13. Completing the Test Certificate

BS7671-2008 (the 17th Edition Wiring Regulations) becomes mandatory from 1st June 2008.

Running Time – approximately 69 minutes
